Epic 2FA Setup Guide – January 2025

Created by *ECSA Team* – IT Infrastructure Administration

(System Management Department)

Created by ECSA TEAM | IT Infrastructure Administration

2FA Configuration Setup

Follow these steps to set up Two-Factor Authentication:

Install the Microsoft Authenticator app on your smartphone (if you don't already have it).

- Open Hyperdrive, and login using your credentials.
- In the homepage screen, click on the Get Started button.

Two-Factor Authentication - Enrollment				
	Welcome	Configure	Verify	Finish
	Welcome! Two-factor authentication improves the security of your account by using a secondary device to verify your identity. This adds an extra layer of security to ensure that anyone with only your password cannot access your account. Click "Get Started" to configure your mobile device.			a secondary device nyone with only
			→ <u>G</u> et	Started X Cancel

• Scan the QR code using the Microsoft Authenticator app.

- Enter the 6-digit code generated by the app into the designated field.
- Click Confirm to finalize the setup

If you face any issues, please contact the ECSA Team
